

AECOM Technical Support Packages Available Free of Charge Through Locality

Phase	Type of AECOM Technical Support	Key Outputs include	Comment	Action
1	Housing Needs Assessment (HNA)	Robust independent study providing clarity on demand	Caution on duplication of WBC role	Speak with Laila
		Policy options suited to meet community needs relating to housing type and tenure	Key benefit over WBC numbers is that type of housing and tenure is obtained.	Perhaps Aecom could work from WBC base figures?
1	Site Options and Assessment	Robust assessments that can withstand legal challenge	Mitigation of Major Risk 1	
1	Masterplanning	A community-led visionary masterplan with options for site specific neighbourhood objectives.		
1	Design including Design Codes	Proposals that facilitate and guide development that is of community benefit.		
2	Environmental Impact Assessments	Scope of work, agreed with WBC, for EIA.		Ask Laila if we need them.
2	Strategic Environmental Assessment	An SEA scoping report and an Environmental Report	Mitigation of Major Risk 3	Ask Laila if we need it.
2	Habitats (Regulations) Assessments	An NP that informs site allocation and helps WBC to assess the NP as being legally compliant.	Mitigation of Major Risk 4	Ask Laila if we need it.
3	Evidence Base and Policy Development	Properly referenced evidence that can withstand challenge.	Mitigation of Major Risk 1	
4	Plan Health Check Review	Peace of mind.	Mitigation of Major Risk 3	
NB There is minimal face to face contact with the consultants undertaking all this work FoC. Communication is generally by email, phone and video calls.
